### **Commitment:**

I am committed to plant three churches in 5 years with Jibit Asha International.

My name is Yahosu [Joshua] Tamang. I was born in June, 25, 1983 in a Christian family. My father was a pastor who had planted a church himself. I heard the gospel from my father from the very young age. My father was a Spiritual figure and mentor to me many ways in terms of my faith and commitment to Christ. I always involved in the different ministries helping my father's ministry from the early age of life. My father passed away few years ago. After his passing away, I am leading the church as a pastor.

When I grew up, I went through lots of ups and down in my faith. My father being a village pastor had to go through lots of economic hardship and other reproaches from the Hindu villagers. As a result I always resisted the idea of becoming a pastor though I helped his ministry many ways. But three years ago, I felt that God is calling me to his ministry. From that point onward, I committed my entire life to serve him though there would be lots of hardship. God also gave me a vision to reach out surrounding villages and plant churches in these areas where there are no churches.

Right now I am [our team] is praying and preparing to plant churches into two different villages. These village are about 2 hours of walk from our village. There are no christians in these villages and people are mostly farmers and poor people. Please pray that our team would be able to show God's love and share the Gospel.
